In a direct challenge to President Obama's campaign promises to end the DEA raids of medical marijuana collectives and other DEA actions calculated to undermine state's rights and the will of the voters in the 13 states that have sanctioned the doctor supervised use of marijuana, the DEA has subjected yet another California collective to it's signature "smash and grab" raids. On Thursday, January 22, Holistic Solutions of South Lake Tahoe suffered some of the DEA's violent "after Christmas sale" shopping. Taking cash and products and acting like thugs, the DEA made no arrests, as usual.

Make you mad? Thought you voted for change? Call the White House, the President is the Top Cop and Chief Executive, and let him know your disappointment with the current DEA action and your expectations of the President's new administration. The phone number for the White House is 202.456.1111 . There are live, volunteer operators manning the phones and taking handwritten notes for our new President. Please call and voice your concern about the new DEA actions!

Or do nothing and choose to live on your knees as a subject of the People With Guns, squid.
