We've been lab testing monthly with Green Style Consulting, each time creating an ever more festive atmosphere. In October 2013, we decided to celebrate this year's harvest and the new El Dorado County Ordinance 4999 with a little bit of a Harvest Fair and a Cannabis Cup determined by the testing day's results. There were some munchies and music by the world famous Island of Black and White and the legendary Walking Spanish. A festive time was had by all, but, time for the results:
